ESGENA

European Society of Gastroenterology
and Endoscopy Nurses and Associates

Grant for 22nd ESGENA Conference

- **2 free registrations for each country**

Dear colleagues

As already announced during the ESGENA Education Working group meeting, ESGENA received a grant from Olympus Europe which should enable active endoscopy nurses to attend the 22nd ESGENA Conference and 26th UEG Week on 20-22 October 2018 in Vienna, Austria.

The ESGENA governing board decided, to use the 100 tickets in the following way:

- To give free registration to accepted free paper and poster authors (about 30x)
- to give 2 tickets to all ESGENA membership countries having an ESGENA group membership.
- To give 10 tickets to Austria as the host country of this year's conference

The aims of the **ESGENA Conference Grant** are:

- to advance educational opportunities for staff working in gastroenterology and endoscopy nursing
- to support the exchange of knowledge and experience between gastroenterology and endoscopy nurses on the European level.
- to provide a channel for communication between different European countries
- to stimulate the co-operation between endoscopy nurses working in different European countries

Anticipated outcomes of the **ESGENA Conference Grant** are

- to increase knowledge focused on daily practice
- to optimize patient care in endoscopy
- to advance evidence-based practice
- to make nurses aware of new techniques and developments which are relevant for their daily practice,
- to encourage a critical look at the profession in order to promote the professional status of endoscopy nursing.

Please select two active endoscopy nurses and inform us by 15th August 2018.

- It is highly appreciated if you select two active nurses who should be supported.
- Whenever possible the grant should not be used by national board members.
- The idea is really to support active, motivated nurses and to raise their interests for international networking.
